BLEED: Please add .5" bleed to layout for trimming purposes.

Case to counter kit size: 77.4" x 30.51" / front live area is 24" wide

# FILE PREP GUIDE FOR LAMBDA OUTPUT FOR VARIO D400 MURALS

## **FOR BEST QUALITY: MAKE FILE 100 DPI OR HIGHER (AT OUTPUT SIZE)**

Please Send Line Work, Logos, Etc. in format created.

Place Photoshop images in Adobe Illustrator document and do all Vector Logos and Type in Illustrator. Change all fonts to paths.

## **FORMATS**

**Recommended:** Adobe PhotoShop (layered file .psd format), Adobe Illustrator (.ai)

Please, no Freehand, QuarkXpress, or Adobe InDesign for murals.

**COLORS: RBG / Do vector colors in Adobe Illustrator / Specify PMS Colors in the file.**

## **SIZE**

Files should be setup to size. May be scaled 25%, 50%, if needed. Murals should be set up to have ½" bleed on total mural. It is not necessary for you to setup paneling. No bleed is necessary for dimensional or detachable graphics.

## **SCANNED IMAGES**

Scan all images in RGB mode. Scan at sufficient resolution to provide 100 dpi at output size.

## **FONTS**

Change fonts to outlines in Illustrator. Include all screen and printer fonts for PhotoShop Files.

## **SAVING FILE**

Do not save Illustrator files as EPS. Save PhotoShop files as PhotoShop with all layers intact; this allows us to adjust colors if necessary.

## **SENDING ARTWORK**

We can accept artwork on DVD, CD-ROM, Call for instructions to send via FTP

## **WHAT ELSE TO SEND**

Printed hardcopy proof of the layout. Note any PMS colors that need to be matched.

A pdf proof is also fine if you are FTP-ing. Please only send the files we will be using. Linked files and fonts should be in a support folder on the disk. If your are FTP-ing, please stuff or zip you folder containing all files.

Send any fonts (screen and printer) which were not changed to outlines.

## **SPECIAL INSTRUCTIONS**

Color Gradations for large areas such as backgrounds should be created in PhotoShop if possible. If created in Illustrator, use gradation tool, NOT blend tool
